

56 SIMPLE (BUT SUPER EFFECTIVE) COMPLIMENTS TO ENCOURAGE YOUR SPOUSE

Remember back to the days when you first met your spouse. In those days you would compliment them on everything from the shoes they wore to the inner beauty they radiated.

These simple words you would speak could change their day in an instant.

Usually it was something as simple as...

"You are _____." (fill in with a compliment)

Your spouse desires to hear compliments and encouragement from you again.

A wife desires to be her husband's ideal of beauty, especially in a world that is photoshopped, edited, filtered and so on.

As a husband you have an opportunity every day to build HER up. To let HER know that you like what you see both inside and out. These regular reminders chase away doubts and insecurities. It nourishes HER to hear these words from you, the man she loves.

A husband wants to be respected and honored. He needs to know that you, as his wife, are there encouraging him, complimenting him in the tasks he does around the house, in the work he does, in his men's group, and as your lover.

As a wife when you encourage your husband he can go out there and slay those dragons as he battles the world for his wife and family.

When you encourage your spouse you stay focused on YOUR marriage. When YOU are reminding your spouse of their amazing attributes you also are reminding yourself of the beauty that YOU have inside your marriage.

This brings the focus squarely back to your spouse and your marriage and you no longer have to look outside of your marriage for compliments and encouragement.

NOW IS THE TIME TO LIFT AND ENCOURAGE YOUR SPOUSE.
